TABLE BASE WEIGHT CAPACITIES

LOOKING TO MATCH OUR TABLE BASES WITH A DIFFERENT TOP?

HERE IS A GUIDE TO THE SIZE AND WEIGHT CAPACITIES OF OUR TABLE BASES.

TABLE BASE	IMAGE	MAXIMUM WEIGHT OF TOP	MAXIMUM SIZE OF TOP
DAKOTA SMALL BASE		220-250lbs 100-114kg	47in/1200mm Round Top
DAKOTA STANDARD BASE		450-550lbs 205-250kg	60in/1500mm Round Top 96in/2440mm Oval Top
DAKOTA LARGE BASE		650-750lbs 295-340kg	72in/1820mm Round Top 120in/3050mm Oval Top
Please note: The Dakotas are very sturdy, but if stability is an issue, you can fill the Bases with sand to aid stability and assist holding heavier tops. However, we recommend you only pursue this option if you have followed all other Installation Steps first. See Resources on our website to find out more.			
ISLAND TABLE BASE (SET OF 2)		450lbs 205kg	118in/3000mm Oval Top
ROTARY TABLE BASE		650-750lbs 295-340kg	72in/1820mm Round Top 48in/1200mm Oval Top 96in/2440mm Oval Top
